

RENT US1

SVĚTOVA 1 is an open, modular space that fully adapts to your project needs — whether you're shooting, co-working, or running a program. It includes a modular exhibition room, a living room, and essential facilities: bedroom, shower, and WC.

SVĚTOVA 1 is a community-based nonprofit artist-run space and a platform focused on emerging, queer, and social matters. Through exhibitions, public programs, and educational activities, our mission is to continuously aspire to become a safer space, support our fellow friends, maintain sustainable processes, and act as a refuge for those in need. We aim to become an educational and research institute – run by artists for artists.

The space comprises a 75m² living room, a 30m² exhibition room, and a 60m² studio. It comfortably seats up to 70 people, or hosts up to 100 standing — well suited to creative work, meetings, and workshops.

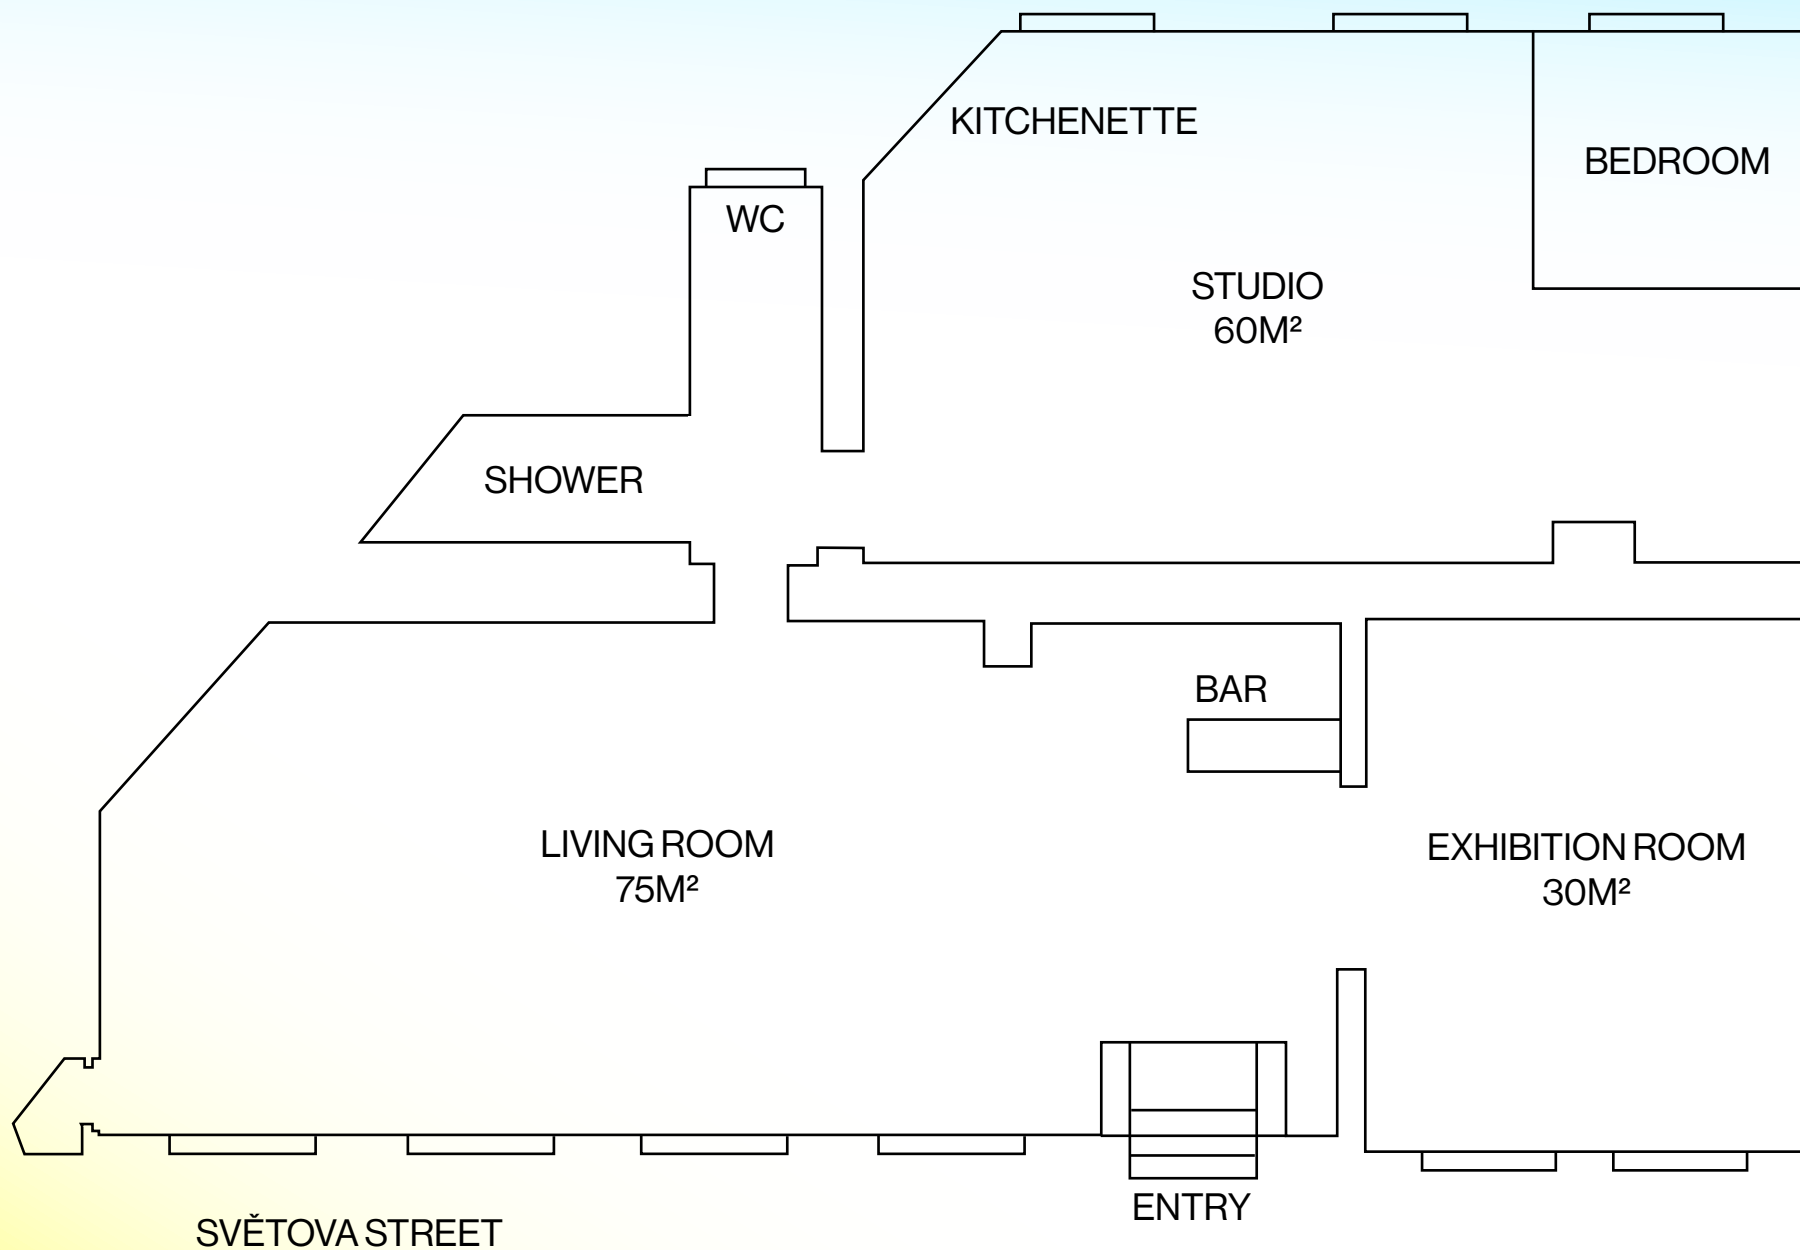

In the evening, the space shifts into a cosy setting for intimate seated dinners or standing receptions.

Each room has a distinct role: the living room hosts screenings, lectures, workshops, and banquets; the exhibition room suits pop-up shows and converts easily into a children's area; the studio and bedroom double as backstage space. The well-lit, flexible layout handles both simple and complex setups.
